# Why France?

The French tennis circuit, considered the best in the world, has more than 5,000 tournaments per summer (May to August) aimed at players of all levels and ages, both beginners and professionals. These tournaments are conveniently located in close proximity to each other, allowing us the possibility to even play in two tournaments on the same day. The tournaments follow a progressive structure, where every player, regardless of age or skill level, initially competes with players of similar ability. As players win, they advance to higher levels, ensuring that all matches are closely matched and competitive. This unique format guarantees an unparalleled opportunity for players to enhance their tennis skills and competitiveness. And an important fact is that **all matches count for the UTR ranking.**

## Where we are?

**Rouen**

NORMANDIA

This beautiful port city on the edge of the Seine River is where we stayed throughout our stay.

Located just an hour from Paris, Rouen was a very important city in Roman times and in the Middle Ages.

Rouen, is Normandy's cultured, historic, gastronomic, vibrant capital. Monet's canvases of the cathedral have made it the best loved building in town, but many other glories stand out, including fine museums and the church dedicated to tragic visitor Joan of Arc.

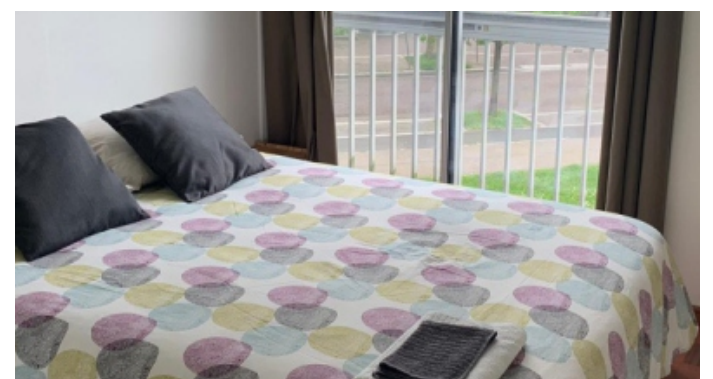

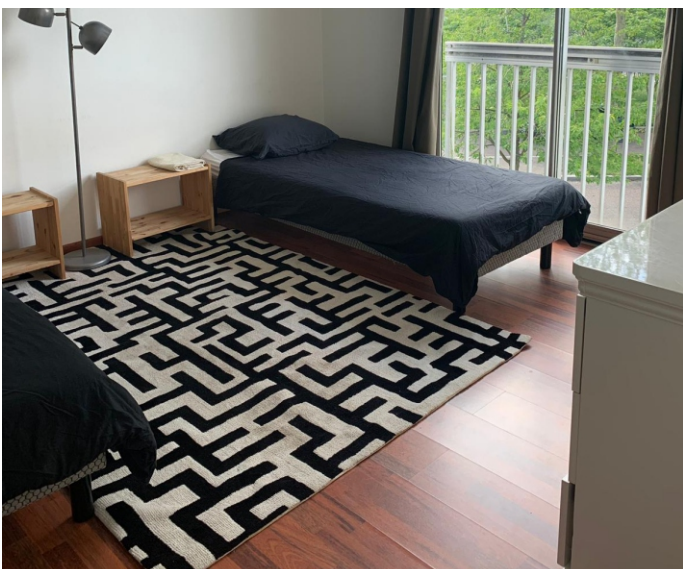

The Vieux-Marché square is where Joan of Arc was burned in 1431. Today, the Sainte-Jeanne-d'Arc church is a very original modern building.

# Housing

We offer fully equipped 1, 2, 3, and 4-bedroom apartments in an exclusive building designed specifically for our players and coaches. This space features a private gym and a recovery room, providing the necessary facilities for the optimal development of their activities.

The spacious and bright apartments are carefully furnished with amenities such as a washing machine, WiFi, cable TV, dishwasher, full kitchen, bedding, towels, among other comforts. We ensure that everyone enjoys a comfortable and convenient environment during their stay

# Private GYM

The building has a highperformance and private gym, where our players can do their training routines without leaving the facility.

The gym is a meeting point for our players to share time and experiences
